

HARDIK N. DAVERA

PHP Developer (Laravel / Full Stack)

daverahardik5@gmail.com | +91 91067 70262 | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

PHP/Laravel Developer with 1 year of experience building and maintaining web-based ERP applications using object-oriented PHP, MySQL, JavaScript and RESTful APIs. Strong in troubleshooting and debugging, extending backend data services, and delivering features on schedule. Comfortable working independently and collaboratively, with clear communication across technical and non-technical clients.

EXPERIENCE

PHP Developer | Flexgrew Technologies

October 2025 - Present

- Troubleshoot and debugged **30+** issues during the initial ERP deployment, stabilizing the platform and meeting delivery deadlines.
- Built an end-to-end purchase workflow in Laravel covering requisitions, orders, GRN, and automated QC routing, plus a QC module for purchase, production, party-supplied materials, sales return, and multi-level BOM.
- Developed conditional inventory routing via REST API-driven business rules based on QC results: moving items to stock, triggering rework.
- Built a machine work allocation module using MVC that schedules manufacturing jobs from production orders or batch cards based on the production process.
- Created a real-time machine tracking dashboard in Vue.js showing active jobs, queued tasks, and idle machines.
- Extended existing backend data services and REST APIs to support new QC, inventory, and production workflows.
- Gathered requirements from clients and built a configurable Excel import module with dynamic field mapping, cutting manual entry and mapping effort by **90%**.
- Collaborated directly with clients to demonstrate features, implement change requests, and deliver revisions in short iterations.

Tech Stack: Laravel, Vue.js, JavaScript, MySQL, RESTful APIs, MVC Architecture, Eloquent ORM, Git

PROJECTS

TheEmployee - [GitHub](#)

- Developed a centralized employee management system with complete **CRUD** operations.
- Implemented authentication and authorization workflows with role-based access control (**RBAC**).
- Engineered server-side validation and optimized **MySQL** database interactions for maximum data consistency.

Tech Stack: PHP, MySQL, JavaScript, Bootstrap

SKILLS

Languages: PHP (OOP), JavaScript, HTML5, CSS3

Frameworks & Libraries: Laravel, Eloquent ORM, Vue.js, Pinia, Bootstrap, jQuery, AJAX

Databases: MySQL

Tools: Git, GitHub

EDUCATION

Saurashtra University

(2023 - 2026)

- Bachelor of Computer Applications (BCA) — CGPA: 7.4 | Coursework: DBMS, OOP, Web Development
